LOUVAIN-LA-NEUVE, A VIBRANT AND GREEN CITY, IS THE PERFECT SETTING FOR YOUR PROFESSIONAL EVENTS IN THE HEART OF BELGIUM.

A leading academic hub

Louvain-la-Neuve, created and driven by UCLouvain, fosters collaboration with experts and researchers in a vibrant environment of knowledge and innovation.

Inclusivity

The city ensures seamless mobility for everyone: access ramps and adapted infrastructures make it easy for people with reduced mobility to navigate throughout the city.

Environmental Commitment

As a pedestrian-friendly city surrounded by nature, Louvain-la-Neuve embodies environmental respect through its sustainable initiatives, providing an enriching setting for eco-friendly events.

Open-Air Art Gallery

With its murals and artistic installations, Louvain-la-Neuve is a city where every corner unveils a masterpiece. An urban space that is both unique and inspiring.

Culture and Community

Festivals, galleries, and artistic events shape the rhythm of the city, a young and dynamic place where warmth and creativity come together.

LOUVAIN-LA-NEUVE: HISTORY AND VISION OF A UNIQUE CITY

01. A CAMPUS DESIGNED AS A CITY

Born in the 1960s following the division of the Université catholique de Louvain, Louvain-la-Neuve was created to host UCLouvain's French-speaking community. This new university town in Wallonia represents a unique model: entirely pedestrian and centered around academic life.

02. A CITY DESIGNED WITH NATURE IN MIND

Since the 1970s, Louvain-la-Neuve has been built with respect for its natural landscape and surrounding green spaces. With a central platform separating vehicular traffic from pedestrian life, it offers a unique setting where nature and urban planning coexist for the well-being of its residents.

03. THE EMERGENCE OF A SCIENTIFIC HUB

Louvain-la-Neuve quickly became a center for research and innovation, with a science park connected to UCLouvain. This development has established it as a leading academic and scientific site, attracting talent and international projects.

04. TODAY: THE FULFILLMENT OF A VISION

Over the decades, Louvain-la-Neuve has grown into a vibrant and dynamic place, staying true to the innovative spirit that guided its creation. It remains a model of a new town, combining its academic identity with excellent quality of life and a forward-looking perspective.

THE GUIDE TO LABELS

The Access-I label indicates that a location is suitable for all individuals with specific needs, thanks to features such as ramps, elevators, and facilities designed to ensure an accessible and comfortable experience for everyone.

The Green Key label guarantees that the location adheres to strict environmental standards, reducing its ecological impact through responsible management of water, energy, and waste. It ensures visitors a sustainable and nature-friendly stay.

The Bienvenue Vélo label signifies that certified locations provide a warm welcome and facilities tailored to cyclists, such as secure parking and repair kits, ensuring a convenient and enjoyable stay.

In Wallonia, the **"Soleil"** quality label is an official recognition for tourist attractions, awarded by the General Commission for Tourism. This classification in Soleils, comparable to stars for hotels, highlights the quality of the sites and services provided.
